### **Protect your Pet!**

#### *Did you know?*

- Domestic dogs do not know the danger of poisonous snakes
- 15,000 dogs may be bitten by poisonous snakes every year
- 70-80% of bites are to a dog's face and head, indicating it was investigating a snake
- Dogs can be taught to associate the smell of live rattlesnakes with negative correction
- A dog's avoidance behavior helps alert owner to the danger as well

*Proceeds benefit environmental education programs,  
restoration, and acquisition of parklands and trails.*
